

Alternative 1: 1A , 2 A, 3 A, 4 A - MIN

Category	Actions Selected	Functional Basis for Inclusion	Specification for Action Implementation
	Restoration of Delta Shallow Water (Tidal) Habitat		
	-Protect existing shallow habitat from erosion	for improved habitat for all species	
	Restoration of Delta Riverine Habitat		
	-Restore/preserve channel islands	for fish species	
	-Modify construction practices to include riverine elements	for fish species	
	Restoration of Delta Riparian Habitat		
	-Improve and protect degraded riparian habitats	for improved habitat for all species	
	-Modify levee maintenance practices	for improved habitat for all species	
	-Protect existing riparian habitat	for improved habitat for all species	
	Restoration of Upstream Anadromous Fish Habitat		
	-Manage flows in upstream habitats	for anadromous fish	
	-Manage temperatures in upstream habitats	for anadromous fish	
	Physical Improvements for Fish Passage		
	-Modify passage at upstream dams/other barriers	for anadromous fish	
	-Modify natural barriers to improve passage	for anadromous fish	
	Integration of Land-Use and Water-Supply Planning		
	-Coordinate land uses with water supplies	for reduction of critical demand from the Delta
